Returns under the Prevention of Food Adulteration Act

General and Revenue Secretariat | File No | of 194 | [App F III—2

Serial No

10) In Coorg, the Chief Comr has prescribed, under the Coorg Pure Food Act, 1940 the submission of certain returns — monthly & quarterly — from the Presidents of Mcls & of village Panchayats showing the action taken by them under the Act & the prosecutions launched thereunder

11) There are 17 Taus (including Bangalore) to which the provisions of the Food Adulteration Act have been extended in the State. As suggested by the Dir of Ht the Deputy Comrs of Districts where registered to entrust the powers of the above Mcls to send up samples of food etc to the Public Health Institute, Bglore

To make the necessary provision to meet the charges for analyses of samples in the budgets of the Mcls for 1941-42 onwards (Memo 2)

The Dir of Ht suggests that the making of such a provision should be made compulsory on the local bodies (about 17 Mcls as to enable them to secure the samples & send them for Chemical Examn every week) & he also proposes — on the analogy of what is done in Coorg — that the local bodies may be instructed to send

GOVERNMENT OF MYSORE

5537

OFFICE OF THE DIRECTOR OF PUBLIC HEALTH IN MYSORE, BANGALORE

Dated 6th March 1942

No C 1435-3 40-41

P.H 106-41-4

To

The Secretary to Government,

Development Department,

BANGALORE

Sir,

With reference to your letter No 8808/P H 106-41-2 dated 26th February 1942, I have the honour to inform that one of the copies of the order issued by the Chief Commissioner of Coorg is sent to the Chemical Examiner to the Government of Mysore

It is very desirable that a quarterly return is received from the Local Bodies to whose jurisdiction the provision of food adulteration Act has been extended Though necessary facilities have been provided for these local bodies to get the samples analysed in the Central Laboratory at the Public Health Institute the Local Bodies where the Food Adulteration Act has come into force have not availed themselves of the facilities. In this connection, a reference has beer submitted to Governmert in this office letter No C 1435 dated 19-3-1941 suggesting that a certain provision should be made by each Local Body for getting the samples examined at the Public Health Institute because it is found that the Local Bodies hesitate to spend money on this subject Further, merchants do not seem to like the idea of taking action with reference prevention of adulteration of food and articles of food from a business point of view If provision is made in the budget and expenditure on this head is made a matter of routine expenditure every week, it will be possible to control the adulteration

12

I request that orders of Government may be obtained instructing the local bodies to submit quarterly reports of the work undertaken with reference to food adulteration Act, provide necessary funds and to seize samples and send them for Chemical Examination every week

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR OF PUBLIC HEALTH
